CAPABILITY STATEMENT

Core Competencies

The Vallejo Company is a one stop shop for underground utility construction. We handle site preparation, utility installation and hard and soft restoration. Vallejo has over 15 years of experience in the repair and replacement of gas, water, and sewer utilities. We specialize in trenchless installations using horizontal drilling but also open-cut methods. Vallejo has strong divisions in Asphalt and Concrete paving as well, completing roads, drives, sidewalks, and curbs. We are also certified in Heavy Highway Dump trucking.

Company History

The Vallejo Company has been a full functioning small business, since its incorporation in 1994. Vallejo started as a Cleveland based, Local Heavy Highway Trucking company subcontracting work to both public and private sectors.

Under new ownership with Katharine Yaroshak in 2013, Vallejo has successfully expanded to become a highly successful general contractor providing services in Gas, Water and Sewer installation and repair. Heading in to 2021 Vallejo had more than doubled its size and is continuing to grow in their new headquarters. Through this growth Vallejo also now offers services in Directional Boring and Hard Restoration, both Asphalt and Concrete.

As a woman owned small business in Cleveland, Vallejo works to be extremely competitive in all aspects of their work. A great reputation is the most important thing to us here at Vallejo. We take great effort to provide the safest, well-maintained equipment and working conditions for our employees. We believe that solid and open communication is the key to a successful working environment.
