

CLEVELAND

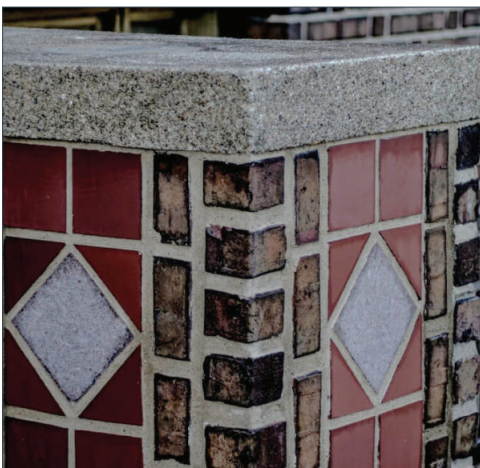

BUILDING RESTORATION

Cleveland Building Restoration, founded in 2017, strives to provide the highest quality craftsmanship in masonry restoration while preserving the integrity and beauty of historic architecture. Our talented craftsmen, with long-term union experience, are dedicated to safe work practices, which include our ongoing commitment to the adherence of OSHA's silica dust regulations. We have invested in the equipment and continual training necessary to adhere to dustless standards, and each team member has completed the OSHA 30 certification, which is a 30-hour orientation to occupational safety and health for construction workers.

We are FBE (Female Business Enterprise) certified and a certified Women's Business Enterprise (WBENC) and belong to the Construction Employers Association (CEA), Contractors Assistance Association (CAA), NAWIC, International Masonry Institute (IMI), Better Business Bureau (BBB) and Cleveland Restoration Society.

Whether you need brick masonry restoration on your historic church building or a concrete parking deck repair for your commercial business, Cleveland Building Restoration has the expertise, experience and knowledge to provide the best possible result and deliver on our promise of unparalleled quality. Our services include brick and stone restoration, expansion joints, lintel repair/replacement, mortar matching, tuckpointing, caulking, thru-wall flashing, epoxy and wet seals, waterproofing, historic preservation, terra cotta repair/restoration, graffiti removal, masonry cleaning, concrete repair/restoration, parking deck and parking garage repairs, tracked maintenance programs.

With regard to the type of customers, we do commercial restoration (not residential). Our customer base includes education, hospitals/healthcare, government, cultural and nonprofit, senior living, corporate, apartment complex, cemeteries/mausoleums, hospitality/entertainment, religious, aviation/transportation, industrial/manu-
